EDUCATION

- **Virtual University** — Wah Cantt, PK
  Bachlor's of Science in Computer Science — *March 2024 – March 2028*

EXPERIENCE

- **CapregSoft** — Kohistan Enclave, PK
  Junior Frontend Engineer — *Oct 2024 – Present*
  * **TensorFlow Integration in Frontend**: Developed React components to visualize training data and model outputs dynamically, improving user interaction and insights into AI model performance
  * **Frontend Optimization**: Leveraged modern React features like hooks, context API, and lazy loading to create dynamic and user-friendly interfaces.

- **Cognito Js** — New City Phase 2, PK
  Frontend Engineer — *March 2024 – Oct 2024*
  * **Dynamic Data Integration**: Built a React.js application to streamline data processing workflows, integrating bulk data processing pipelines and REST APIs.
  * **Analytics Dashboards**: Created Next.js and React.js-powered dashboards for tracking user engagement and campaign performance, integrated with backend APIs for real-time analytics.
  * **Content Personalization**: Enhanced the content discovery process by developing personalized onboarding flows and search experiences using React.js.
  * **Customer Relationship Management (CRM)**: Designed and developed a feature-rich CRM system using React.js to track customer interactions, manage leads, and analyze user behavior.
  * **Logistics Software**: Created React.js-powered dashboards for logistics tracking, route optimization, and trip management. Designed interactive modules to monitor shipment statuses, calculate costs, and analyze performance metrics for real-time decision-making.
  * **Content Management System (CMS)**: Customized and enhanced WordPress themes and plugins to create tailored solutions for embedding surveys, managing marketing campaigns, and optimizing content workflows.

- **POF Computer Center** — Wah Cantt, PK
  Frontend Traianee — *Summer 2023 and 2024*
  * **Portfolio Management**: Created models for portfolio hedging, portfolio optimization and price forecasting. Also created a strategy backtesting engine used for simulating and backtesting strategies.
  * **QuantDesk**: Python backend for a web application used by hedge fund managers for portfolio management.

SKILLS

* **Frontend Development:** HTML, CSS, JavaScript (ES6), React.js, Next.js, React-Bootstrap, Bootstrap 5, Tailwind CSS, Material UI
* **Web Frameworks and Libraries:** React.js, Next.js, React-Bootstrap, Tailwind CSS
* **Design and Styling:** Material UI, Bootstrap 5, Tailwind CSS
* **Programming Languages:** JavaScript (ES6), HTML, CSS
* **Version Control:** Git, GitHub
* **Other Tools and Technologies:** Webpack, NPM, REST APIs, Responsive Web Design

PROJECTS

* **Grilli Resturent :** Developed a responsive and visually appealing restaurant website showcasing menus, services, and booking options. Deployed on Vercel for seamless performance and accessibility. https://grill-resturent.vercel.app
* **Zohan Online :** Created a high-performance digital marketing website optimized for SEO, offering seamless navigation, engaging content, and strategic calls-to-action to boost traffic and conversions. https://zohanonline.com
* **Protfolio Website :** Portfolio showcasing my React.js projects, demonstrating my skills in front-end development and creating seamless web experiences.https://suleman-shakeel.vercel.app
